

**Yellow warning
Thunderstorm**

Between
14:00 Tue 9 Jul 2024 and
02:00 Wed 10 Jul 2024

**Thundery downpours may lead to some flooding in a few places.****What to expect**

- Some flooding of a few homes and businesses possible, leading to some damage to buildings or structures
- Perhaps some damage to a few buildings and structures from lightning strikes
- There is a good chance driving conditions will be affected by spray, standing water, leading to longer journey times by car and bus

Further details

Heavy showers and thunderstorms are likely to continue to move northwards this evening, slowly dying out overnight. Many places will miss these, but where they do occur, there is the chance of some localised impacts from heavy rain, as well as damage from lightning strikes. 10-20 mm of rain is possible in an hour or so, with some places potentially seeing 30 mm in a few hours.

What should I do?

Consider if your location is at risk of flash flooding.

✓ Medium likelihood of low impacts

Yellow warning
Thunderstorm

Between
14:00 Tue 9 Jul 2024 and
02:00 Wed 10 Jul 2024

Further Details (continued)

If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

The warning area has been removed from parts of Wales and central England whilst extended northwards across northern England. The end time has also been extended until 0200 Wednesday.
